
Tungsten E2 MemoryMgr.c, Line:3732, NULL handle

Posted by ENEPEI - 2009/06/24 22:30

Exiting of application in Palm Tungsten E2 device (Palm OS Garnet v.5.4.7), cause a error with lost of data.

title: Fatal error

Messagee: MemoryMgr.c, Line:3732, NULL handle

button: reset

• button on screen donâ€™t respond, only • soft reset• back of palm.

After • soft reset• , the pdb table was completely deleted. • ClientesDB.pdb• recordscount= 391 .

Note: same aplication run in other palm devices (TX, Z22) without any error, with equal PDB.

Source debbuging:

```
static void AppStop(void) // exit application
```

```
{
    FrmCloseAllForms (); // run ok
    if (DmCloseDatabase(referencia) != errNone ) // it does not arrive
    {
        // no llega
    }
}
```

enviroment: Metrowerks CodeWarrior 9.3 C,C++
